DATA SUMMARIES

(S/NF/SG/LIMDIS) Following are the perceived highlights from each source.

SG1A

-- The target [REDACTED] sounds muslim and is more than likely of middle eastern descent. He is dark, wears sunglasses and may have a beard. This man is a traveler. He prefers airport travel and rarely travels alone. He is a wanted man and is relied upon for deliveries. I see him associated with a large modern black car with others of like kind. He is also familiar with devices because I see him screwing something in or down and is aware of political circumstances. He has a family and at least one baby. I feel this man's endeavors have been stopped, blocked or controlled recently.

- (S/NF/SG/LIMDIS) Source B:

-- The target is known by at least two other names and has fake creds with which he uses to travel with. He is associated with explosives and his personal history involves the use and/or training in the use thereof. This aspect of his character is little known. There is another aspect for which the customer is interested.

-- I sense that the target has a natural ability to take things apart and reconstruct them; be it a watch, a computer or a lawn mower for that matter.

-- I see a moderately tall individual who is pudgy; however, his physical appearance can change very frequently - like month to month for example. He has a fondness for western "fast food" to the point of bingeing.

-- He spent a lot of his childhood in an area where a lot of nomadic type activity occurs; Bedouin, for example. his family was comfortable but not well-off enough to move into a city.

-- He has been involved with translation for a large company; maybe banking, securities - something associated with finances. He is currently working "free lance"; that is, almost a consultant type basis. This fits his political agenda very well.

-- I feel that he has recently been in Kuwait or The Gulf Emirates with a stop over in a central European city. He is targeting a company in the U.S.; large, with initials for a name, and involved with a large, but very specific, government contract.

-- I also sense ties with eastern Lebanon; like an association with a training facility there. Somehow he has been indirectly on the fringes of the ABU NIDAL network.

-- He is a rather nondescript individual who knows several languages. He is also thinning on top or else he uses a lot of hair stuff to slick his hair down.

- (S/NF/SG/LIMDIS) Source C:

-- Target involves secret plans and intentions of a designated area. Terrorism or terrorist like activities may be involved. It seems as though a Middle-Eastern or African country is involved. Target involves a powerful man who looked like a king. A war or struggle may occur.

-- For some reason, Sacramento, California phonetically surfaced.
